Search Notes

Re: Equatorial tracking telescope platform and bearing

Attached are the edited search results from searching nonpatent literature databases and the WWW, and also citation-searching in Derwent Patents Citation Index

The stack is big because I included some full articles.

The search histories are stacked on top of the legal-size sheet.

The results are behind the legal-size sheet.

I recommend that you browse the results. See at least the tagged items. I'm not sure I found anything close that is older than the priority date of 6/6/01.

Based on this, if you have questions or comments, let me know.

**Respectfully,
Jeff Harrison**
